SCREEN

SSW Overall Layout - max width 1033

(1) SSW new logo

(2) Search bar dropdown
The default option will be "All" and the second option will be "My Cases". Possibly add most popular Source options to the search bar dropdown.

(3) Filter icon
This is a toggle. Clicking this will display the filter options in the left column. Clicking again will close the filter left column.

(4) Preferences icon
This will launch the preferences dropdown.

(5) Help icon
This will link to the updated SSW User Guide in the Playbook or other help documentation.

(6) Expanded/Simple icons
This will display a dropdown with the options to select Expanded or Simple view. Expanded is the default.

(7) Excerpt icon
This is a toggle to show/hide the excerpt for either the Expanded or Simple view. When the icon is not depressed the excerpt is shown, when it's depressed it's hidden.

(8) Sort dropdown
Sort options on "SSW Layout - My cases, tooltips, dropdowns" wireframe.

(9) Sort ascending (A to Z) and descending (Z to A)
This is a toggle. The default is ascending when it's not pressed. When it is depressed it will sort descending (A to Z).

(10) Indent 1 column (of the 12 col grid)
The search results should be moved in 1 column of the 12 col grid but this space should be removed for smaller screens and when it's embedded in the Case Details page in the console.

(11) Pagination
This shows the number of pages each linked tot he corresponding page and then page you are on is highlighted. The left and right arrows move to the previous or next page.

(12) Documents per page dropdown
The dropdown options will be 25, 50, 100.

(13) Search results width max
We want to have the search results display in 9 columns of the 12 col grid. So it's colufmns 2-10. We do not want the width to extend past

(14) Terms of Use
Opens Terms of Use page in new window.

(15) Number of results on page out of total
